Fidelity INVESTMENTS

5 Ways to Protect Yourself from Cyber Fraud

Here's what you can do to keep your Fidelity workplace savings account safe.

Set up online access for your Fidelity NetBenefits® account.

Cybercriminals frequently attack unregistered online accounts.

> From the NetBenefits.com login page, select *Register as a new user*.

1

Create a unique username and password for your Fidelity NetBenefits account.

Don't share this information with anyone and don't ever reuse passwords.

> If you're new to NetBenefits, create a UNIQUE username and password during the *Register as a new user* process.

> If you're already registered, visit NetBenefits.com > Profile > Login & Security to change your username and password.

2

Add or update your mobile phone number and email address.

3

Get real-time alerts and confirm sensitive transactions through two-factor authentication.

> Visit NetBenefits.com > Profile > Personal & Contact Information.

Sign up for eDelivery and monitor your Fidelity NetBenefits account.

4

Check account statements and other documents for unauthorized activity.

> Visit NetBenefits.com regularly. To receive your documents via email instead of U.S. Mail, go to Profile > Preferences.
Enable Fidelity MyVoice.^{SM}

5

Eliminate the need for passwords with your personal encrypted voiceprint.

> Next time you call, a Fidelity Representative will offer to enroll you—you'll need to provide Fidelity consent to create your unique voiceprint.
